Instructions: Indicate your professional opinion of the user-wheelchair interface as it is presently and as it applies to your understanding of the current user’s characteristics and living situation.

- If an interview is possible, it can be beneficial, but it is **not required** for this questionnaire.
- Provide your professional opinion by placing a **vertical mark on the line**.
- Do **not** circle emoticon faces; they are only for reference in placing your mark.
- Mark **anywhere** on the line. See example 1 below.
- Include at least one complete phrase on the **comment** line to describe the **reason** behind your rating. Be specific about situations or parts that are a problem.
- For mobility questions, answer as the user is **most likely** to travel, either with or without assistance.
- If a question does not apply at all to the user-wheelchair interface you are rating, do not mark the line, but **write NA** in the comment section and explain **why the question did not apply**.

See the examples below.
