

# Microsoft® IT Academy Program

## Microsoft IT Academy Program enables us to:

- **Offer world-class technology curriculum** to help students gain experience in the latest Microsoft technologies for basic technology proficiency and advanced IT education to earn Microsoft certification in application development, support, systems administration, and other areas.
- **Provide rich, online learning resources** for anytime, anywhere IT learning for students and for instructor and staff professional development.
- **Link academic learning to real-world job skills** to help students graduate with the IT skills needed to advance in their career.
- **Create a skilled workforce for employers** so applicants with relevant technology education and skills are available in the workforce.
- **Connect students and instructors to Microsoft** for lifelong personal and professional skills development.

## A global learning solution

*The Microsoft IT Academy Program is a global IT education solution connecting students, instructors, institutions, and communities through a life-long learning model of technology-skills development. Academic institutions worldwide look to the Microsoft IT Academy Program to offer the latest IT education programs for Microsoft technologies.*

Courses are available to students working toward proficiency with everyday business applications and to those pursuing an IT career path. Program courses are available for faculty and staff professional development.

LeTourneau University is a program member of the Microsoft IT Academy. Online learning and resources are available 24x7, 365 days of the year to any student, faculty or staff.

### How Do I Enroll in the Microsoft IT Academy?
